Gender: Male **Date of birth:** 01/06/2004 **Place of birth:** Cesena, Italy **Nationality:** Italian

ABOUT MYSELF

I consider myself as an *eager* and *highly motivated learner*, quite often trying to go beyond the 'educational level' of concepts taught during lectures. I'm passionate about what I study and what I do, and the attention to small details and beauty always drives me to do my best in every occasion.

EDUCATION & TRAINING

[14/09/2023 - Current]

Bachelor Degree

Alma Mater Studiorum - University of Bologna

City: Cesena | **Country:** Italy | **Level in EQF:** 6

List (not necessarily exhaustive) of topics covered during the studies:

- Software development - languages and paradigms: Procedural and Object Oriented programming, C/C++, Java, Python, JavaScript, HTML, CSS3, PHP, Assembly, Bash, SQL, Kotlin. Main design patterns and MVC architecture;
- Software versioning: Git and GitHub;
- Algorithms and Data Structures:
 - Trees (B+-, Binary, Red-Black...), MST (Prim, Kruskal);
 - Graphs - BFS (Breadth First Search), DFS (Depth First Search), Max Flow, shortest paths (Dijkstra, Bellman-Ford);
 - Heap, Linked List;
 - P vs NP problems;
 - Computational Complexity of algorithms: sorting, selection, matrix multiplication;
- Network programming: ISO/OSI and TCP/IP stacks, HTTP servers;
- Web programming: full stack application with web-native languages for client-side (HTML, CSS, JavaScript) and PHP for server-side. XAMPP;
- Mobile programming: native Android applications (with Android Studio), iOS development, Flutter and React Native;
- System Virtualization: Docker, Kubernetes;
- Operating Systems and Computer Architecture: Low level studying of hardware; Assembly language, Linux (Ubuntu), schedulers, memory management, OS architecture.
- AI: numerical methods
- Databases: Relational (MySQL, Oracle), and NoSQL (Document-based like Mongo, Vector-based and Knowledge Graph)
- Project management, UML (State/Sequence/Class/Objects/Activity/Packages Diagrams)
- Embedded Systems and Internet of Things: basic electronics, Arduino and ESP32 from a software point of view; RTOS - Real Time Operating System

[15/09/2015 - 06/07/2023]

High School Diploma

Technical and Technological Institute "Blaise Pascal"

<https://www.ispascalcomandini.it/>

City: Cesena | **Country:** Italy | **Field(s) of study:** Information and Communication Technologies | **Final grade:** 100 with honours | **Level in EQF:** 4

List (not necessarily exhaustive) of topics covered during the studies:

- Software development: Procedural and Object Oriented (OO) programming, C#, HTML, CSS3, JavaScript, SQL, Assembly, Blazor, Vue, React, NodeJS, Typescript, Bootstrap CSS, Bash. MVC and MVVM architectures.
- Network design: using Cisco Packet Tracer to design networks and study protocols. ISO/OSI and TCP/IP stacks have been the main topics of the "Network" subject.
- Unified Modelling Language (UML), Project management principles.
- Virtualization: tools like Virtual Box to run Kali Linux & PFSense VMs.

WORK EXPERIENCE

Technical and Technological Institute "Blaise Pascal"

City: Cesena | **Country:** Italy

[04/03/2025 - 25/03/2025]

ICT trainer

PNRR Course "React for Dummies" — calendar of lessons held and material used are available at the course repository:

<https://github.com/Nickolausen/react-for-dummies>

ARAKNE S.R.L.

City: Rome | **Country:** Italy

[01/10/2023 - 01/11/2023]

Software developer

[Work modality: Remote] The main goal was to create a software that, given a fragments of ancient pots dataset, resembles the original pictures. Two different approaches have been tested: trying to look up online for a ready-to-use solution and, in parallel, developing a procedural Python software.

Gruppo Maggioli

City: Sant'Arcangelo di Romagna | **Country:** Italy

[15/05/2022 - 11/06/2022]

Software developer

Internship about web development; HTML, CSS, JavaScript, Angular, Entity Framework. Development of a full stack application "Cricchetto24" — clone of [AutoScout24](#) .

PROJECTS

[01/04/2023]

Script Manager

The project aimed to develop a working IDE that could store files in a server, organize them in directories and did have to support multiple programming languages. I worked in the front-end side, integrating Monaco Editor in Vue.js and providing all the features a VS Code-like editor has.

[07/05/2024 - Current]

Notte Pitagorica - Pitagorici APS

Organization of educational events and plays in theatres about Math and its interdisciplinary connections to music, philosophy, art, literature. IT support to website, graphics, sponsor material and posters.

Link: <https://pitagorici.org/>

[14/09/2023 - Current]

University projects - bachelor degree

I developed many projects in different fields of computer science for many courses of my bachelor degree — see them all @ [NickolausenTheAcademic](#) .

Link: <https://github.com/NickolausenTheAcademic>

[05/05/2023 - 05/05/2023]

PLS M.M.A. / Mathematical Methods for Animations "CON NOME - Minigolf randomico"

3rd place in "Metodi Matematici per l'Animazione" with the project "CON NOME - Minigolf randomico" @ University of Bologna / Department of Mathematics, Bologna, Italy.

Links: <https://github.com/wisetreeam/MMA-2023> | https://pls.unibo.it/metodi_matematici_animazione | https://www.dm.unibo.it/pls/metodi-matematici-per-l-animazione-2023/animations/wise_treeam/dist/index.html

LANGUAGE SKILLS

Mother tongue(s): Italian

Other language(s):

English

LISTENING: C2 **READING:** C1 **WRITING:** B2

SPOKEN PRODUCTION: C1 **SPOKEN INTERACTION:** C1
